Trainee/Internship Program Offer

(10759) Electrical Engineering & Lighting Program – Princeton, NJ

Program Duration: 12-18 months

Compensation: \$16.00 per hour

Housing: not provided

Number of Position Offered: 1

Host Company Description:

This host company consists of technical professionals, lighting consultants, and program managers that provide lighting and energy solutions to the educational, healthcare, and commercial fields. From beginning to end, the host company provides support to ensure standards, budgets, and timelines are met for each project. Creating sustainable solutions for each project is at the core of their mission.

Position Description:

- Works with client to plan, prioritize, schedule, and manage lighting conversions in facilities
- Provides day-to-day oversight of 3rd parties and electrical contractors in facilities
- Provide problem-solving logic/input to challenges that arise on projects
- Provide weekly updates to program manager and progress to key stakeholders
- Meet with client's project teams regularly to provide updates on program and discuss open items, challenges, and accomplishments

Applicant Qualifications:

- To apply for the **Internship** program, you must be an undergraduate student of **mechanical, electrical, or renewable energy engineering** OR a recent graduate starting the program within 12 months of graduation.
- To apply for the **Trainee** program, applicants must have either a degree or professional certificate from a foreign post-secondary academic institution and at least 1 year of prior related work experience in the **mechanical, electrical, or renewable energy engineering** field acquired outside the United States **OR** 5+ years of experience in this field.
- Applicants must speak advanced English, and project management is a plus
- Excellent communication skills, exceptional presentation skills. Ability to present technical information in writing, through emails and reports, or orally, to management, technical and non-technical audiences, and functional teams.
- Knowledge and interest in sustainable energy

How to Apply:
