Training Program Offer

(11101) Engineer Development Training – Eatonton, GA

Program Duration: 12 months

Compensation: \$8.50 per hour

Housing: accommodations provided

Number of Position Offered: 2

Host Company Description:

This host company is a manufacturer of frameless/framed kitchen and bath cabinets. They are committed excellence and safety, and are seeking engineers to help their business excel. Eatonton, Georgia is about an hour away from the cultural hub of Atlanta – close enough for weekend exploration. Eatonton itself is known for its hiking trails, watersports on local lakes, Native American history, and picturesque downtown area.

Position Description:

Trainees can contribute meaningfully to ongoing project through more structured learning with immediate practical application

- Provide hands-on experience in advanced cabinet manufacturing processes
- Learn about American manufacturing standards and quality control systems
- Develop expertise in lean manufacturing and industrial engineering principles
- Foster cross-cultural knowledge exchange in manufacturing best practices
- Build international professional networks in the woodworking and manufacturing industry
- Participate in rotations that include the engineering department, production floor, quality assurance, and supply chain/logistics

Applicant Qualifications:

- To apply for the **Training** program, you must have one year of work experience in manufacturing, engineering, or a related field, with a degree in **mechanical, industrial, or manufacturing engineering OR wood science and technology**.
- Strong analytical and problem-solving skills with basic understanding of manufacturing processes
- Intermediate English skills or better

How to Apply:
