Trainee/Internship Program Offer

(20008) AI & Automation Workflow Program – New York, NY

Program Duration: 12 – 18 months

Compensation: \$17.00 per hour

Housing: not provided

Number of Position Offered: 1

Host Company Description:

The host company is a family-owned, children's furniture manufacturer and distributor located in New York City. It sells its products at major retailers like Walmart, Target, and Amazon, or at small, local shops. They donate ten percent of all profits towards improving the lives of underprivileged children by giving back to the communities that need help the most.

Position Description:

- Leverage AI platforms (ChatGPT, Claude, Gemini) to create solutions, support operational needs, and enhance team efficiency
- Develop and maintain n8n workflows and automated processes, including building API integrations to streamline business operations
- Create and refine prompts for AI tools
- Use text-to-video, content generation, and scripting tools to produce automated content
- Design scalable automation systems that improve marketplace performance

Applicant Qualifications:

- To apply for the **Internship** program, you must be an undergraduate student of **a degree program related to AI/workflow automation** OR a recent graduate starting the program within 12 months of graduation.
- To apply for the **Trainee** program, applicants must hold **a degree related to AI/workflow automation** degrees and have at least 1 year of professional work experience related to the degree, OR be career professionals with 5 or more years of professional experience in this field
- **Advanced English is required** with strong communication skills
- Proficient with AI platforms, ability to build n8n workflows, with experience in AI problem-solving
- Familiarity with text-to-video and scripting tools

How to Apply:

1. Submit a professional resume with a professional photograph
2. Indicate availability dates (start and end dates)
3. Indicate this offer number and title
