

Trainee/Internship Program Offer **(20022) AI Solutions Program – New York, NY**

Program Duration: 12 – 18 months

Compensation: \$17.00 per hour

Housing: not provided

Number of Position Offered: 1

Host Company Description:

The host company is a family-owned, children's furniture manufacturer and distributor located in New York City. It sells its products at major retailers like Walmart, Target, and Amazon, or at small, local shops. They donate ten percent of all profits towards improving the lives of underprivileged children by giving back to the communities that need help the most.

Position Description:

- Design and optimize prompts for large language models (LLMs) to generate webpages, structured reports, and written content
- Support the development of AI-powered solutions by integrating LLM outputs into business and technical workflows
- Analyze and evaluate AI model responses to ensure alignment with project requirements and quality standards

Applicant Qualifications:

- To apply for the **Internship** program, you must be an undergraduate student of **computer science/software engineering** OR a recent graduate starting the program within 12 months of graduation.
- To apply for the **Trainee** program, applicants must have either a degree or professional certificate from a foreign post-secondary academic institution and at least 1 year of prior related work experience in the **computer science/software engineering** field acquired outside the United States OR 5+ years of experience in this field.
- Experience communicating with customers & high-level experience with social media ads
- Excellent English language skills, highly organized, and strong logic and problem-solving skills
- **Required qualifications:** prior use of LLM models to generate webpages and reports

How to Apply:

1. Submit a professional resume with a professional photograph
2. Indicate availability dates (start and end dates)
3. Indicate this offer number and title
